**TARIFF FORMAT**

- A. Page Numbering** - Page numbers appear in the upper right corner of the page. Pages are numbered sequentially. However, new pages are occasionally added to the tariff. When a new page is added between pages existing pages with whole numbers, a decimal is added. For example, a new page added between pages 34 and 35 would be 34.1.
- B. Page Revision Numbers** - Revision numbers also appear in the upper right corner of each page. These numbers are used to determine the most current page version on file with the Commission. For example, the 4th Revised Page 34 cancels the Original Page 34. Consult the check sheet for the page currently in effect.
- C. Paragraph Numbering Sequence** - There are nine levels of paragraph coding. Each level of coding is subservient to its next higher level:
- 2
  - 2.1
  - 2.1.1
  - 2.1.1.A
  - 2.1.1.A.1
  - 2.1.1.A.1.(a)
  - 2.1.1.A.1.(a).I
  - 2.1.1.A.1.(a).I.(i)
- D. Check Sheets** - When a tariff filing is made with the Commission an updated check sheet accompanies the filing. The check sheet lists the pages contained in the tariff, with a cross reference to the current revision number. When new sheets are added, the check sheet is changed to reflect the revision. All revisions made in a given filing are designated by an asterisk (\*). There shall be no other symbols used on this sheet if these are the only changes made. The tariff user should refer to the latest check sheet to find out if a particular page is the most current on file with the Commission.

**SECTION 2 - REGULATIONS****2.1 Undertaking of the Company**

The Company provides long distance message telecommunications service to customers for their direct transmission of voice, data and other types of telecommunications.

Communications originate when the customer accesses the Company directly or through the facilities of another carrier via one or more access lines, equal access or on a dial-up basis. The Company may act as the customer's agent for ordering access connection facilities provided by other carriers or entities when authorized by the customer, to allow connection of a customer's location to the Company's network. The customer shall be responsible for all charges due for such service arrangements.

The Company's services are provided on a monthly basis, unless otherwise stated in this tariff. Services are available twenty-four (24) hours per day, seven (7) days per week.

**2.2 Limitations on Service**

- 2.2.1** Service is offered subject to the availability of the necessary facilities and/or equipment and subject to the provisions of this tariff.
- 2.2.2** The Company reserves the right to discontinue furnishing service upon written notice, when necessitated by conditions beyond its control or when the customer is using the service in violation of the provisions of this tariff or in violation of the law.
- 2.2.3** To the extent that any conflict arises between the terms and conditions of a service agreement or other contract and the terms and conditions of this tariff, the tariff shall prevail.
- 2.2.4** Title to all equipment provided by the Company under this tariff remains with the Company.
- 2.2.5** The customer may not transfer or assign the use of service provided under this tariff except with the prior written consent of the Company. Such transfer or assignment shall only apply where there is no interruption in the use or location of the service, and all regulations and conditions contained in this tariff, as well as all conditions for service, shall apply to all such permitted assignees or transferees.

**SECTION 2 - REGULATIONS (continued)**

**2.2 Limitations on Service (continued)**

- 2.2.6** Customer may request Carrier to assign one or more sub-accounts for billing purposes, and to direct sub-account invoices to customer's affiliates or other designated entities for payment. Such requests shall not affect the liability of the customer, who shall remain solely liable to the Company for payment of all invoices for service requested and obtained by customer, whether invoiced by the Company to the customer, the customer's affiliates, or other designated entities.

**2.3 Use of Service**

Service may not be used for any unlawful purposes or for any purpose for which any payment or other compensation is received by the customer, except where the customer is a duly authorized and regulated common carrier.

**2.4 Limitation of Liability**

- 2.4.1** In view of the fact that the customer has exclusive control of its communications over the facilities furnished by the Company, and other uses for which facilities may be furnished by the Company, and because of the unavoidableness of errors incident to the services and to the use of such facilities of the Company, the services and facilities furnished by the Company are subject to the regulations and limitations specified herein.
- 2.4.2** The Company's failure to provide or maintain facilities under this tariff shall be excused by labor difficulties, governmental orders, civil commotions, acts of God and other circumstances beyond the Company's reasonable control, subject to the interruption allowance provisions under this tariff.
- 2.4.3** Defacement of premises - No liability shall attach to the Company by reason of any defacement or damage to the customer's premises resulting from the existence of the Company's equipment or facilities on such premises, or by the installation or removal thereof, when such defacement or damage is not the result of the negligence of the Company or its employees.

**SECTION 2 - REGULATIONS (continued)****2.4 Limitations of Liability (continued)**

- 2.4.4** Indemnification - The Company's liability, if any, for its gross negligence or willful misconduct is not limited by this tariff. With respect to any other claim or suit by a customer or by any others, the customer indemnifies and saves harmless the Company against claims, losses or suits for injury to or death of any person, or damage to any property which arises from the use, placement or presence of the Company's equipment, facilities and associated wiring of the customer's premises and further the customer indemnifies and saves harmless the Company against claims for libel, slander, invasion of privacy or the infringement of copyright arising directly or indirectly from the material transmitted over the facilities of the Company or the use thereof by the customer; against claims for infringement of patents arising from combining with or using in connection with, facilities furnished by the Company and apparatus, equipment and systems provided by the customer; and against all other claims arising out of any act or omission of the customer in connection with the services or facilities provided by the Company. No agents or employees of other carriers shall be deemed to be agents or employees of the Company.
- 2.4.5** The Company's liability, if any, for its gross negligence or willful misconduct is not limited by this tariff. With respect to any other claim or suit, by a customer or any others, for damages arising out of mistakes, omissions, interruptions, delays or errors, or defects in transmission occurring in the course of furnishing service hereunder, the Company's liability, if any, shall not exceed an amount equivalent to the proportionate charge to the customer for the period of service during which such mistake, omission, interruption, delay, error, or defect in transmission or service occurs and continues. This liability shall be in addition to any amounts that may otherwise be due to the customer under this tariff as an allowance for interruptions. However, any such mistakes, omission, interruptions, delays, errors, or defects in transmission or service which are caused or contributed to by the negligence or willful act of the customer, or authorized user, or joint user, or which arise from the use of customer provided facilities or equipment shall not result in the imposition of any liability whatsoever upon the Company.
- 2.4.6** The Company shall not be liable for any damages, including usage charges, that the customer may incur as a result of the unauthorized use of authorization codes or communications equipment. The unauthorized use of communications equipment includes, but is not limited to, the placement of calls from the customer's premises, and the placement of calls through equipment controlled and/or provided by the customer, that are transmitted over the Company's network without the authorization of the customer. The customer shall be fully liable for all such usage charges.

**SECTION 2 - REGULATIONS (continued)****2.5 Interruption of Service**

- 2.5.1** If a customer's service is interrupted other than by the negligence or willful act of the customer, and it remains out of order for eight normal working hours or longer after access to the premises is made available and after being reported to be out of order, appropriate adjustments or refunds shall be made to the customer. The amount of adjustment or refund shall be determined on the basis of the known period of interruption; generally beginning from the time the service interruption is first reported. The refund to the customer shall be a pro rata part of the monthly recurring charges (but not for per minute or per call charges) for the period of days and that portion of the service facilities rendered useless or inoperative. The refund may be accomplished by a credit on a subsequent bill for the service.
- 2.5.2** A credit allowance for interruptions of service which are not due to the Company's testing or adjusting, to the negligence of the customer, or to the failure of the channels, equipment, and/or communications systems provided by the customer, are subject to the general liability provisions set forth herein. It shall be the obligation of the customer to notify the carrier of any interruption in service. Before giving such notice, the customer shall ascertain that the trouble is not being caused by any action or omission by or within the customer's control and is not in wiring or equipment connected to the carrier terminal.

**2.6 Restoration of Service**

The use and restoration of service in emergencies shall be in accordance with the Part 64, Sub-part D of the Federal Communications Commission's rules and Regulations which specifies the priority system for such activities.

**2.7 Customer Responsibility**

- 2.7.1** All customers assume general responsibilities in connection with the provisions and use of the Company's service. When facilities, equipment and/or communication systems provided by others are connected to the Company's facilities, the customer assumes additional responsibilities. All customers are responsible for the following:
- A.** The customer is responsible for placing orders for service, paying all charges for service rendered by the Company and complying with all of the Company's regulations governing the service. The customer is also responsible for assuring that its users comply with regulations.

**SECTION 2 - REGULATIONS (continued)****2.7 Customer Responsibility (continued)****2.7.6 Payment and Charges for Services**

Charges for service are applied on a recurring and nonrecurring basis. Service is provided and billed on a monthly basis. Service continues to be provided until disconnection is requested by the customer in writing, or until canceled by the Company pursuant to this tariff.

**A. Payment of Charges**

Payment will be due upon receipt of the statement. A payment is considered delinquent thirty (30) days after rendition of the bill. A bill is considered rendered when deposited in the U.S. Mail for delivery to customer's last known address.

1. The customer is responsible for payment of all charges for service furnished to the customer. Charges based on actual usage during a month will be billed monthly in arrears. All fixed monthly and nonrecurring charges for services ordered will be billed monthly in advance.
2. Service may be denied or discontinued by the Company for non-payment of past due or delinquent amounts due the Company. Restoration of service will be subject to all applicable installation charges. Disconnection may not occur before thirty (30) days from invoice and the Company must give five (5) days written notice before any disconnection can occur.

**2.7.7 Application of Rates**

The rates for service are those in effect for the period that service is furnished.

**2.8 Responsibility of the Company****2.8.1 Calculation of Credit Allowance**

Under the limitations of section 2.7.4, when service is interrupted the credit allowance will be computed on the following basis.

- A. No credit shall be allowed for an interruption of less than two hours.
- B. The customer shall be credited for an interruption of two hours or major fraction thereof that the interruption continues.

**SECTION 2 - REGULATIONS (continued)****2.8 Responsibility of the Company (continued)****2.8.1 Calculation of Credit Allowance (continued)**

- C. Where there has been an outage, and a minimum usage charge applies, and the customer fails to meet the minimum usage, a credit shall be applied against that minimum. The credit shall equal 1/360th of the monthly minimum charges associated with the portion of service disabled for each period of two hours or major fraction thereof that the interruption continues.

**2.8.2 Cancellation of Credit**

Where the Company cancels a service or the provision of equipment and the final service period is less than the monthly billing period, a credit will be issued for any amounts billed in advance, prorated at 1/30th of the monthly recurring charge for each day the service was rendered or the equipment was provided. This credit will be issued to the customer or applied against the balance remaining on the customer's account.

**2.8.3 Disconnection of Service by the Company**

Upon five (5) days written notice, the Company may discontinue service or cancel an application for service without incurring any liability for any of the following reasons:

- A. Non-payment of any sum due to the Company for service for more than thirty days beyond the date of rendition of the bill for such service;
- B. Violation of any regulation governing the service under this tariff;
- C. Violation of any law, rule, or regulation of an government authority having jurisdiction over the service; or
- D. The Company is prohibited from furnishing services by order of a court or other government authority having jurisdiction.
- E. Customer uses equipment in such a manner as to adversely affect the Company's equipment or service to others.

**SECTION 2 - REGULATIONS (continued)****2.8 Responsibility of the Company (continued)****2.8.4 Fractional Charges**

Charges for a fractional part of a month (which follows a full month) are calculated by counting the number of days remaining in the billing period after service is furnished or has been discontinued. The number of days remaining in the billing period are counted starting with the day after the service was furnished or discontinued. Divide that figure by thirty days. The resultant fraction is then multiplied by the monthly charge to arrive at the fractional monthly charge.

**2.8.5 Insufficient Fund Checks**

Customers will be charged \$20.00 on all checks issued to the Company which are returned due to insufficient funds. At the discretion of the Company, the insufficient funds check charge may be waived under appropriate circumstances (e.g. a bank error).

**2.9 Taxes and Fees**

**2.9.1** All state and local taxes (e.g., gross receipts tax, sales tax, municipal utilities tax) are not included in the rates under this tariff, but shall be listed as separate line items on the customer's bill.

**2.9.2** To the extent that a municipality, other political subdivision or local agency of government, or commission imposes and collects from the Company a gross receipts tax, occupation tax, license tax, permit fee, franchise fee, or regulatory fee, such taxes and fees shall, as allowed by law, be billed pro rata to the customer receiving service from the Company within the territorial limits of such municipality, other political subdivision or local agency of government.

**2.9.3** Service shall not be subject to taxes for a given taxing jurisdiction if the customer provides the Company with written verification, acceptable to the Company and to the relevant taxing jurisdiction, that the customer has been granted a tax exemption.

**2.9.4** The Company may adjust its rates or impose additional rates on its customer to recover amounts it is required by governmental or quasi-governmental authorities to collect from or pay to others. The Company may also adjust its rates or impose additional rates to cover the administrative cost of collecting such charges or paying compensation to other entities. Examples of such programs include, but are not limited to, the Universal Service Fund (USF), the Presubscribed Interexchange Carrier Charge (PICC), and compensation to pay telephone service providers for the use of their pay telephones to access the Company's services.

**SECTION 2 - REGULATIONS (continued)****2.12 Toll Limitation**

(N)

CBAD may establish credit limits for new and existing residential customers based upon credit scores assigned by a commercial credit-reporting agency, or based upon the customers' payment history. Customers may request this service as a means of limiting their toll. Additionally CBAD or the Local Telephone Company on behalf of CBAD may implement Toll Limitation on its own, in order to limit its risk in regard to uncollectible accounts. Toll Limitation service is generally instituted in lieu of a deposit.

CBAD will inform customers when they place an order for new service if they are placed on Toll Limitation. When a customer is placed on Toll Limitation, at their own discretion or by CBAD, a letter will be sent to them outlining the specifics of Toll Limitation. Also, when a customer reaches a threshold limit of toll conversation minutes, a message will be played to that customer when they attempt to place their next toll call. This message will state that they have reached a threshold number of minutes and have only a certain number of available minutes before Toll Limitation is activated on their account. They will also be directed to contact CBAD if they have any questions.

Toll Limitation service will limit customers to eight hundred (800) minutes of unpaid toll usage. The 800 minutes of toll usage limitation is based on actual usage, not just usage that has already appeared on the customer's bill. The 800 minutes of usage consists of toll usage that is provided by CBAD.

Customers will be blocked from initiating toll calls after hanging up on a call that carries them past 800 minutes of accumulated unpaid toll minutes. Once blocked, customers will not be able to begin making toll calls again until they have paid the full amount of toll charges owed.

Customers subject to Toll Limitation implemented by CBAD or by the local telephone company on behalf of CBAD may pay a deposit instead of having their toll access limited. In such case, the amount of the deposit will be based on a minimum of 800 minutes of toll usage per month.

**SECTION 3 - LONG DISTANCE SERVICES****3.1 Timing of Calls**

**3.1.1** The customer's monthly usage charges for the Company service are based upon the total number of minutes the customer uses and the service options to which the customer subscribes. Chargeable time begins when the connection is established between the calling station and the called station or PBX. Chargeable time ends when the either party hangs up. If the called station hangs up but the calling station does not, chargeable time ends when the connection is released by automatic timing equipment within the telecommunications network.

**3.1.2** No charges apply if a call is not completed.

**3.2 Start of Billing**

For billing purposes, the start of service is the day following acceptance by the customer of the Company's service or equipment. The end of service date is the last day of the minimum notification of cancellation or any portion of the last day, after receipt by the Company of notification of cancellation as described in Section 2 of this tariff.

**3.3 Interconnection**

Service furnished by the Company may be interconnected with services or facilities of other authorized communications common carriers and with private systems, subject to the technical limitations established by the Company. Service technical limitations established by the Company. Service furnished by the Company is not part of a joint undertaking with such other carriers. Any special interface equipment of the Company and other participating carriers shall be provided at the customer's expense.

Interconnection with the facilities or services of other carriers shall be under the applicable terms and conditions of other carriers' tariffs. The customer is responsible for taking all necessary legal steps for interconnecting its customer-provided terminal equipment or communications systems with the Company's. The customer shall secure all licenses, permits, right-of-ways, and other arrangements necessary for such interconnection.

**SECTION 3 - LONG DISTANCE SERVICES (continued)****3.4 Terminal Equipment**

The Company's service may be used with or terminated in customer provided terminal equipment or customer provided communication systems, such as teleprinter, handsets, or data sets. Such terminal equipment shall be furnished and maintained at the expense of the customer, except as otherwise provided. The customer is responsible for all costs at its premises, including customer personnel, wiring, electrical power, and the like incurred in its use of the Company's service.

The customer shall ensure that its terminal facilities are of the proper mode, band-width, power, data, speed, and signal level for the intended use of the customer, and that the signals do not damage the Company's equipment, injure personnel or degrade service to other customers.

If the customer fails to maintain and operate its terminal equipment properly, resulting in the occurrence or possibility of harm to the Company's equipment or personnel, or impairment to the quality of service to other customers, the Company may, upon written notice, require the use of protective equipment at the customer's expense. If this fails to produce satisfactory quality and safety of service, the Company may, upon written notice, terminate the customer's service.

**3.5 Calculation of Distance**

Usage charges for all mileage sensitive products are based on the airline distance between rate centers associated with the originating and terminating points of the call.

The airline mileage between rate centers is determined by applying the formula below to the vertical and horizontal coordinates associated with the rate centers involved. The Company uses the rate centers and associated vertical and horizontal coordinates that are currently being used within the industry.

Formula:

$$\sqrt{\frac{(v_1 - v_2)^2 + (h_1 - h_2)^2}{10}}$$

**3.6 Minimum Call Completion Rate**

The customer can expect a call completion rate of 99% per 100 calls attempted during peak use periods for all Feature Group D (1+) services. The Company will engineer its switching systems on the basis that ninety-nine percent (99%) of the customers accessing their system will be served during the busy hour.

**SECTION 3 - LONG DISTANCE SERVICES (continued)****3.7 Special Service Arrangements**

Special Service Arrangement charges will be based on the estimated cost of furnishing such services including the cost of operating and maintaining such a service, the cost of equipment and materials used in providing such a service, the cost of installation including engineering, labor supervision, transportation, and the cost of any other specific item associated with the particular Special Service Arrangement request.

**3.8 General**

The Company offers Message Telecommunications Service or MTS, outbound Wide Area Telecommunications Service (WATS), Inbound 800 Service, Travel Card Service, Operator Assisted calling programs, Private Line Services and Frame Relay Service. The customer's total monthly use of Carrier's service is charged at the applicable rates per minute set forth herein.

**3.8.1 Message Telecommunications Service (MTS)**

MTS or 1+ dialing is achieved by when the LEC programs the customer's telephone lines to automatically route 1+ calls to the Company's network. Service is billed in six (6) second increments, with partial seconds of usage rounded up to the next six (6) second increment, with a minimum billing of eighteen (18) seconds.

**3.8.2 Toll Free (i.e., 800/888) Service**

Toll Free Service is inbound telecommunications service which permits calls to be completed to the customer's location without charge to the calling party. Access to the service is gained by dialing a ten-digit telephone number which terminates at the customer's location. Toll Free Services originate via normal shared use facilities and are terminated via the customers' local exchange service access line.

The Company will accept a prospective Toll Free Service at customer's request for up to ten (10) toll free telephone numbers and will reserve such numbers on a first-come first-served basis. All request for Toll Free Service number reservations must be written, dated and signed by the customer. The Company does not guarantee the availability of numbers until assigned. The requested Toll Free Service telephone numbers, if available, will be reserved for and furnished to the customer.

If a customer who has received a Toll Free Service number does not subscribe to Toll Free Service within thirty (30) days, the Company reserves the right to re-assign the number to another customer.

**SECTION 3 - LONG DISTANCE SERVICES (continued)****3.16 Integrated Access Service****3.16.1 General**

Integrated Access Service (IAS) offers a discount for Customers who purchase two or more services from the Company under a term agreement of one, two, or three years. The discount offered is based on the number of services purchase and the contract commitment term. Eligible Customers must commit to a minimum aggregated monthly usage of at least \$2,500. If during any month of the term, the Customer's usage of Eclipse's services is less than the minimum commitment, the Customer will pay to Eclipse the difference between the minimum commitment and the Customer's actual usage of Eclipse services. Services eligible for the discount are all Company provided switched and dedicated voice services, dedicated Internet service, Frame Relay Service and Private Line Services billed to one account, including all remote locations (CPE). Dedicated access line charges, customer-premises equipment (CPE), installation and ancillary charges (such as Directory Assistance charges and Operator Services) are not eligible for the discount and do not contribute to the minimum usage commitment. Eligible intrastate, interstate and international usage contribute to the minimum commitment and are discounted according to 3.16.2 below.

**A. Broadband Services**

In addition to the provisions above and in 3.16.4, broadband services (i.e., Frame Relay) customers with an IAS plan will be subject to the following additional provisions:

1. At the end of the Customer's service term, service will renew for successive three month periods. Either the Customer or Eclipse may terminate services upon thirty (30) days written notice prior to then of the term or any successive three month renewal.
2. If the Customer terminates usage of IAS services prior to the end of the term, the Customer will pay to Eclipse 100% of the then-current dedicated access monthly charges (for access provided by the Company), multiplied by the number of months remaining in the term.

- \$10.00 monthly recurring charge.

Calls are measured using four-digit timing and rounded up to the next full minute on a per call basis, rounded up to the next whole penny. Calls are billed in full minute increments. Business Customers who choose on-line billing will receive \$5.00 off the applicable monthly recurring charge. Applicable taxes and fees apply in addition to the usage rates provided under this promotion.

This promotion is available to business Customers who choose one of these options prior to July 1, 2002.

**SECTION 4 - FRAME RELAY SERVICE****4.1 Frame Relay Service - Description**

Frame Relay Service is an enhanced form of packet switching which uses variable length packets to connect multiple local area networks (LANs) for data transmission. Frame Relay Service is available throughout the United States where digital local access is available. The rules for Frame Relay Service in this Section are in addition to those rules found in Sections 1 through 3 of this tariff.

**4.1.1 Definitions:**

**Asynchronous Transfer Mode (ATM)** - an international high-speed, high-volume, packet-switched transmission protocol standard that supports integrated voice, video and data communications. ATM uses short uniform 53 byte cells to divide data into packets for ultra fast switching through the network. The 53 byte cells contain 5-byte destination address headers and 48 data bytes.

**Committed information rate (CIR)** - the statistical measurement of throughput on a PVC over time measured in bits per second. The CIR is the rate at which the network agrees to accept data from the user, and which the network commits to transfer data under normal operating conditions.

**Permanent virtual circuit (PVC)** - the facilities used to form a communications path connecting between two ports. Although a PVC may be defined in static manner with static parameters, it is not fixed to a stationary path through the network.

**Port** - a network entry or exit point on the frame relay switch that connects to the Company's frame relay network.

**Service Date** - The date Frame Relay Service is installed and available, or the date specified on the customer's order form, whichever is later. The service date is the date on which all nonrecurring charges will be billed and monthly charges begin for Frame Relay Service.

**SECTION 4 - FRAME RELAY SERVICE (continued)****4.2 Frame Relay - General****4.2.1 Rate Elements**

Frame Relay Service has three rate elements:

- A. local access facilities;
- B. ports; and
- C. a permanent virtual circuit (PVC).

**4.2.2 Local Access**

Local access facilities must be obtained to access Frame Relay Service. The local access facilities are ordered from the local exchange telephone company. The rates for the local access facilities vary by local exchange company and are found in that the Company's tariff.

**4.2.3 Port Speed**

Port speed is selected to accommodate the various PVCs that use a particular port. The speed represents the highest attainable data rate into or out of the location at any point in time. Available speeds range from 56 Kbps to 1.536 Mbps. A frame relay port connection provides the physical interface into the network and provides the logical termination of PVCs assigned to that port.

**4.2.4 PVC**

The PVC connects the customer's specific end-points on the interexchange network. Each PVC is assigned a committed information rate (CIR), which is the average minimum data rate the network will allocate to the PVC under normal operating conditions. The data transmission rate for a PVC can be greater than the CIR when excess capacity is available on the port and on the network. When this excess capacity exists, an average data rate above the CIR may be achieved up to the port capacity. Data sent across a virtual connection in excess of that connection's CIR will be marked discard eligible in the event of network congestion, and will be delivered only if the instantaneous demand for output on a transmission channel is equal to or less than the capacity of the queue for that channel.

PVCs may be either asymmetrical (one-way) or symmetrical (two-way). Symmetrical (two-way) traffic requires the use of one symmetrical PVC or two asymmetrical PVCs.

**SECTION 4 - FRAME RELAY SERVICE (continued)****4.3 Frame Relay Service - Guarantees****4.3.1 Network Availability**

Network availability is measured as the total number of minutes in a billing month during which core network PVC routes are available to exchange data between the two network infrastructure node end points, divided by the total number of minutes in a billing month. A lapse in network availability is calculated commencing with the date on which the customer informs the Company of service non-availability, and ends on the date of service restoration. The PVC route will be measured from infrastructure port to infrastructure port and will not include the customer premises equipment (CPE) or local access facilities.

**4.3.2 Network Availability Objective**

The Company engineer's its network to achieve availability of 99.9% for networks designed with ten (10) or more network sites and a fully meshed network topology or a star network topology in which each remote site has PVCs connected to at least two network hubs engineered to a separate infrastructure node. In all other instances, the Company engineers its network to achieve availability of at least 99.5%

**4.3.3 Frame Delivery**

Frame delivery measures the percentage of customer's frame relay packets delivered from the Company's network ingress port to the Company's network egress port. This percentage will not include packet delivery failures attributable to local access facilities or CPE.

**4.3.4 Frame Delivery Objective**

The Company engineers its network to achieve a frame delivery level of 99.9% of frames within a customer's CIR, and 99.0% of frames above a customer's CIR. These delivery rates apply for networks designed with ten (10) or more network sites and a fully meshed network topology or a star network topology in which each remote site has PVCs connected to at least two network hubs engineered to a separate infrastructure node. In all other instances, the Company engineers its network to achieve a frame delivery level of 99.0%.

**SECTION 4 - FRAME RELAY SERVICE (continued)****4.3 Frame Relay Service - Guarantees (continued)****4.3.5 Network Latency**

Network latency measures the elapsed time, in milliseconds, required for one data cell (frame relay packets converted to ATM cells on the the Company's backbone network) to be delivered from the customer's Frame Relay Service network ingress port to the network ingress port. Packet delivery failures attributable to local access facilities or CPE are not included.

**4.3.6 Network Latency Objective**

The Company engineers its network to achieve a one-way network latency of 65 milliseconds. This parameter applies for networks designed with ten (10) or more network sites and a fully meshed network topology or a star network topology in which each remote site has PVCs connected to at least two network hubs engineered to a separate infrastructure node. In all other instances, the Company engineers its network to achieve a network latency of 75 milliseconds.

**4.3.7 Frame Relay Service - Guarantee Exclusions**

The standards described above do not include periods of non-attainment resulting in whole or in part from one or more of the following causes:

- Any act or omission on the part of the customer, its contractors, or any other entity over which the customer exercises control or has the right to exercise control;
- Scheduled maintenance;
- Labor strikes
- *Force Majeure* events beyond the control of the Company (including, but not limited to, acts of God, government regulation and national emergency); and,
- Any act or omission on the part of a third party including, but not limited to, the local access provider.

**SECTION 4 - FRAME RELAY SERVICE (continued)****4.4 Minimum Service Terms**

**4.1.1** The minimum service requirement is one month for domestic service and one year for international service. The customer may subscribe to service under one, two, three, four or five year term plans. For any term plan, the rates and term discounts will be fixed for the term at the discount level below. The term will begin on the first day of the month following the date the service is installed and available. Upon expiration, the term will be automatically extended at the term plan rates and discounts for successive ninety (90) day periods, unless thirty (30) days prior to the end of the term or each such extension either (a) the customer or the Company provides written notice to the other that it does not want such extension, or (b) the customer subscribes to another term plan and the rates of the new term plan apply.

**4.4.2** If additional sites are added to a customer's Frame Relay Service after the initial subscription to a term plan, such sites will be incorporated into the customer's term plan and will have the same termination date as the customer's original term plan.

**4.4.3** Existing customers may subscribe to a new term plan for Frame Relay Service of the same or greater value prior to the end of the customer's existing term plan without incurring any termination liability if the new term plan extends beyond the old term plan termination date by at least one year.

**SECTION 4 - FRAME RELAY SERVICE (continued)****4.5 Termination of Frame Relay Service**

Customer must provide the Company with 30 days written notice before terminating frame relay service. Customers terminating service prior to fulfilling their term commitment will be assessed a termination liability equal to one hundred percent (100%) of the monthly recurring charge for each access line, port and PVC service terminated multiplied by the number of months remaining in the first year of the term plan, plus fifty percent (50%) of the monthly recurring charges for each circuit canceled multiplied by the number of months remaining in the term plan after the first year. The customer will not have any termination liability if it subscribes to another Company service of the same or greater monthly revenues and volume, and with a term no less than the remaining months of the term plan or one year, whichever is greater, at the same time the notice of termination is received. The customer will also be liable for a pro-rata amount of any waived installation charges based on the number of months remaining in the term plan.

**SECTION 5 - PRIVATE LINE SERVICES****5.1 General**

The Company provides interstate Private Line Service to Customers with transmission speeds ranging from 64 Kbps to 1.544 Mbps. Private Line Services are offered on a point-to-point basis. Each Private Line Service is dedicated to the Customer bandwidth for each service is available to the Customer for their exclusive use.

**5.1.1 Two Point Service**

Two Point Service allows two Customer designated locations to be connected by one Private Line Service. The service terminated at both locations must be the same speed and the same capacity.

**5.2 Application of Rates****5.2.1 Recurring Charges**

Recurring charges for Private Line Services vary based on the capacity of service, the distance of service, the term plan selected and the monthly revenue commitment made by the Customer. Unless otherwise stated in the description associated with the rate element in this tariff, Private Line Service recurring charges are applied on a circuit basis, per DS0 equivalent. A minimum circuit charge applies which varies by circuit bandwidth.

**5.2.2 Term and Volume Discounts**

Recurring charges for services purchased under a Term Plan will be fixed for the life of the term. The rate level applicable throughout the Term Plan is based on the volume commitment specified by the Customer at the time service is ordered. Customer may terminate any circuit upon 90 days' notice; provided that if termination occurs; (i) prior to the Activation Date, Customer shall reimburse Company for all costs of the implementation of such Circuit; or (ii) on or after such date, Customer shall pay: (a) all charges for services previously rendered and (b) the amount due through the end of the applicable circuit lease term.

**5.2.3 Nonrecurring Charges**

Nonrecurring Charges (NRC) are one-time only charges. NRC's may be waived for certain promotions and under the specific terms of individually negotiated contract services.

All charges incurred by the Company on the Customer's behalf from any Local Exchange Carrier, Competitive Access Provider or Competitive Local Exchange Provider will be directly passed on the Customer. Cross-Connect Charges apply to Company facilities that are connected by the Company to other carriers or Customer interconnect/collocation facility within the same Point of Presence.

Notes

1. All charges incurred by Supplier on Customer's behalf from any Local Exchange Carrier, Competitive Access Provider or Competitive Local Exchange Carrier will be directly passed on to the Customer.
2. Service not described above will be considered special handling and charges will be assessed on an Individual Case Basis (ICB).
3. All of the above changes are subject to changes with a 30 day notice.
4. All Private Line ancillary service charges to cities not listed will be priced on an individual case basis and will be subject to the terms and charges of the underlying carrier.

**5.2.5 Interconnect Charges**

Interconnect Charges apply to connections between the Company's POPs in the same city or between the Company's suite to another suite in the same building. Since costs vary widely by location, the interconnect charges specified in this tariff are the minimum amount that will be charged monthly. All interconnect, construction charges and individual case basis charges incurred by the Company will be passed through to the Customer. Interconnect arrangements are subject to the continuing economic availability of the necessary facilities and equipment.

Access to the service is gained by dialing a ten-digit telephone number which terminates at the customer's location. 800 services originate via normal shared use facilities and are terminated via the customers' local exchange service access line.

Carrier will accept a prospective 800-service customer's request for up to ten (10) 800-telephone numbers and will reserve such number(s) on a first come first serve basis. All requests for 800 number reservations must be made in writing, dated and signed by a responsible representative of the customer. Carrier does not guarantee the availability of number(s) until assigned. The 800 services telephone number(s) so requested, if found to be available, will be reserved for and furnished to the eligible customer.

If a customer who has received an 800 number does not subscribe to 800 services within 90 days, the company reserves the right to make the assigned number available for use by another customer.

**SECTION 6 - OBSOLETE SERVICES (continued)****6.4 Obsolete Service Offerings Formerly Offered by Coastal Telecom Limited Liability Company (continued)****6.4.5 Prepaid Calling Card Service****A. General**

Prepaid Calling Card Service is voice grade switched telecommunications service that allows an end user to place calls charged to prepaid cards issued by Coastal Telecom Limited Company (hereafter referred to as Coastal). The end user accesses the Coastal network by dialing the appropriate 800 number printed on the back of the card.

**B. Unit Value**

Coastal Prepaid Calling Card may be obtained from Coastal or authorized resellers/agents of Coastal in various denominations with a per unit value not to exceed \$0.60, inclusive of all taxes. One unit equals one minute (or fraction thereof) of domestic calling. These prices apply twenty four (24) hours a day, seven (7) days a week.

**C. Collector's Card Value**

In certain instances, an additional cost will be added to the card to cover the cost of printing, set up, enhanced features, etc. Additionally, Coastal will provide Prepaid Calling Cards where the card itself has value (i.e. includes a picture of a licensed property or because of the materials used in the production of the card) distinct from the value of the underlying telecommunications service.

The value of the telecommunications service (in units or dollars) will be indicated on the card. The rates, terms, and conditions will be those of the Unit Value stated in subsection B above.

**D. Availability of Service**

Coastal Prepaid Calling Card Service is available twenty-four (24) hours a day, seven (7) days a week. The number of available prepaid cards is subject to technical limitations. Such cards will be offered to customers on a first come, first served basis. Prepaid Calling Card Service can be accessed through touch-tone telephones only.

- Calls to Directory Assistance.
- Operator Assisted Calls.

**F. Card Depletion/Renewal/Expiration**

**1. Depletion**

Coastal Prepaid Calling Card Service will be reduced and depleted based upon customer usage. At the beginning of each call, the user will be notified as to the amount of minutes available on the card. Customers will be given a minimum notice of one minute before the available card balance is depleted. When the balance of available time is depleted, the call will be terminated.

**2. Renewal**

The end user can extend the use of the Coastal Prepaid Calling Card by charging additional units on an authorized major credit card. The system will "voice prompt" the user through the process necessary to purchase these additional increments. An on-line credit check will be done to ensure that approved credit is available.

**3. Expiration**

Coastal Prepaid Calling Cards are non-refundable and some cards will expire on the date specified on the card while others will expire one (1) year from the date of first use.
